

Master of Performance

HansDampf I Compact granted Technology Award and Top Hotel Star Award 2009

The space saving MKN combi-steamer has been awarded these special prizes for its innovative leading technology with minimal space requirement. Its state-of-the-art features make the work with this appliance a particular pleasure: Automatic operation with "autoChef", freshness and quality due to "DynaSteam®", delicious, crispy and juicy dishes with "ClimaSelect®", top quality regeneration through "Perfection" and simple cleaning with "WaveClean®" (optional). Technology, which the HansDampf I Compact offers in minimum space – only 55 cm wide – in the professional class 6 x 1/1 GN.
