KÜCHENMEISTER®

The MKN KüchenMeister – the new star at FC Bayern München Club Casino

The well known TV and celebrity chef Alfons Schuhbeck also relies completely on MKN professional cooking technology in the kitchen of the FC Bayern München.

In June 2008 the kitchen of the casino was completely re-equipped. The centrepiece of the new kitchen is the MKN KüchenMeister premium cooking block with MKN induction and griddle pan which is perfectly suited to the individual requirements of Alfons Schuhbeck and his team.

However, the two new MKN combisteamer in the new kitchen also convince Mr. Schuhbeck particularly due to their outstanding quality. "The HansDampf is a robust combisteamer! This is high class workmanship – made in Germany!" he says, extremely pleased after the installation.

He is generally "very happy" with the new MKN premium cooking technology in the kitchen of his restaurant at FC Bayern München and there is probably no doubt that the employees and players will get to "taste" this satisfaction ...
