

Master of Performance

New MKN KüchenMeister receives Star Awards - Top Hotel Star Award and Catering Star 2008 -

The individual and innovative KüchenMeister cooking block from MKN has been awarded these special prizes for its unique harmonious balance between function and design in premium quality.

In this “kitchen centrepiece” the most modern induction technology can be individually combined with gas appliances and traditional cooking equipment, e.g. multi-zone hobs, etc. in accordance with the customers’ specifications and budget. The customer can create his personal KüchenMeister from over 400 original MKN cooking appliances.

This outstanding combination of function and design as well as manufacturing quality both amazed and delighted the juries and bestowed the KüchenMeister with the coveted prizes.

The MKN KüchenMeister convinces not only the juries. It is found in the top kitchens of restaurants and hotels worldwide and award-winning celebrity chefs such as Alfons Schuhbeck and Johann Lafer also put their trust in their personal unique MKN KüchenMeister.
